

# SIGN UP TODAY AND JOIN THE FIGHT!

Stop extreme abortion  
laws from being forced  
onto Ohioans

## What is at stake?

On Tuesday, February 21, the abortion lobby submitted a ballot initiative to enshrine abortion **into Ohio's constitution**. If passed, it would make Ohioans pay for painful late-term abortions until birth and remove all current pro-life laws enacted.

## Despite what they say...

- If passed, abortion would be legal through all 9 months of pregnancy.
- Common-sense laws like Parental Consent would be eliminated, removing any protections in place for children.
- The Amendment removes critical health and safety protections for Ohio women.
- The Amendment would require public funding of abortions.
